

Primavera P6 Professional Fundamentals Rel 19

This Primavera P6 Professional training leads you through the entire project life cycle, from planning to execution. You'll develop a thorough understanding of how to plan and schedule.

Learn To:

- Create and schedule a project.
- Assign resources.
- Adjust the project schedule.
- Execute and control the project.
- Add activities.

Benefits to You

Enrolling in this course will help you understand P6 Professional's basic features and functionality so you can apply them to your organization's project management processes. You'll also learn how to manage projects on time and within budget to ensure optimal outcomes from capital and resource investments.

Explore Project Management Fundamentals

All workshops and instruction stress the three basic elements of project management: schedule, resources and costs. At the end of each day, you'll apply the concepts and functionality you learned in a case study. The course is divided into three sections: Creating a Project; Scheduling the Project; Project Execution and Control.

Use P6 Professional

The course uses P6 Professional, Primavera's Windows-based, client/server application. It is appropriate for those using P6 Professional either as a stand-alone application or as part of P6 EPPM.

Please note that this course uses the P6 Optional Client (Windows-based client).
