

R12.2 Oracle Asset Management Fundamentals

This R12.2 Oracle Asset Management Fundamentals training is designed for customers who have implemented Oracle E-Business Suite Release 12 or Oracle E-Business Suite 12.1. Expert Oracle University instructors will help you explore fundamental concepts and implementation considerations of Oracle Asset Management.

Learn To:

- Implement Oracle Assets.
- Set up asset books.
- Explain the asset management process.
- Plan an asset management implementation.
- Set up mass asset additions.
- Set up depreciation and tax accounting.

Benefits to You

By taking this course, you'll walk away with the ability to leverage Oracle Assets to help your enterprise lower administrative costs by streamlining data management. You'll be able to explain the asset management process from Asset Data Flow to the General Ledger, plan an asset management implementation and implement Oracle Assets, as described above.

Learn Through Hands-On Exercises

You'll develop deeper expertise through a series of hands-on tutorials, demonstrations and practices. Interactive, guided demonstrations will supplement your learning.
